AFTON , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Afton was founded in 1880 by Charles Craizier, appointed by the LDS church to preside over the area. In 1889, some sixty families lived in the Afton Townsite. On April 17, 1901, Afton's citizens voted to incorporate.

ALPINE, WYOMING
1990
COMMUNITY PROFILE

HISTORY

Alpine was first settled in 1888 and was located in Idaho. In 1959 the 1.25M acre feet Palisades Reservoir was completed and the rising waters forced the relocation of Alpine to its present location. A portion of the community voted to incorporate in 1988. Alpine is located at the northern end of Star Valley in Lincoln County.

BAGGS , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The beautiful and scenic Little Snake River Valley where Baggs is located lies along the Wyoming-Colorado border in southern Carbon County. The Valley, whose economy is based on agriculture and the energy industry, is a place where tourists can revisit the "Old West." The town was established by Maggie and George Baggs in the early 1870s. They brought the first cattle into the Baggs area, down the River west of the present town of Baggs. The first area post office was established in Baggs in 1879, and the town was incorporated in 1910. Baggs served as a rendezvous point for Butch Cassidy's gang after several train robberies.

BASIN , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The town of "Basin City" was founded in 1896 by Winfield S. Collins expressly to be the county seat of newly created Big Horn County. The town grew fast in its first years. It was incorporated in 1902 and "City" was dropped from the name by the government. Basin is the center for one of the richest irrigated farming areas in the state. This community is one of the pioneers in the entire northwwest in the use of natural gas for heating and lighting. The petroleum natural gas resources of the area remain important.

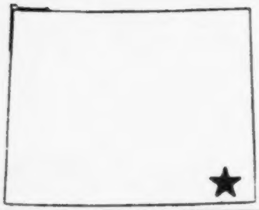
Update 1/90



CHEYENNE , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Cheyenne had its beginnings in 1867 when the Union Pacific Railroad crossed the high plains enroute to the West Coast. The city that sprang up in the railroad's path was named for an Indian tribe that roamed the area. The establishment of Fort D.A. Russell and the booming livestock industry helped Cheyenne grow as the cultural and trading center of the West. Eastern capitalists and foreign nobility invested heavily in Wyoming cattle, at one time making Cheyenne the wealthiest per capita city in the world. While still retaining its frontier charm, Cheyenne is a progressive community with a high quality of life that makes it an excellent place to live and do business.

CHUGWATER , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Indians stampeded buffalo across the plains to charge over bluffs, and the shaggy beasts crashed with a "chug" to their deaths near and in the water below. The stream was called "Chug Water." The first permanent white men to settle the valley were ranchers. Headquarters for the massive holdings of the Swan Land and Cattle Company were located on Chugwater Creek in 1883. This ranch, a stage station, post office and the railroad all helped determine the location of Chugwater. It was first platted on the east side of the railroad tracks in 1887. This failed and the town was replatted in 1911 on the west side of the tracks as it is today.

CODY , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Cody, located 52 miles from the East Entrance to Yellowstone National Park, was founded in 1887 by Colonel William F. "Buffalo Bill" Cody. Cody continues to prosper with its diverse economy, which includes oil/minerals, agriculture and tourism. Oil was discovered near Cody in 1904 and several large producing fields are still located nearby. When the Buffalo Bill Dam, located just west of Cody, was completed in 1910, it was the highest dam in the world. In 1989, the dam will be raised by 25 feet. Year-round recreational opportunities are almost limitless in Cody and the surrounding mountains, forest and wilderness areas.

DUBOIS , WYOMING
1990
COMMUNITY PROFILE

HISTORY

In prehistoric times, the Shoshone Indians called the Dubois area the "valley of the warm winds". The first white man in the area was probably John Colter, who left the Lewis and Clark expedition prior to their return in 1806. The romantic era of the Mountain Man witnessed many expeditions using the valley as a corridor to the rich fur in the region. Dubois has in more recent times had an association with the timber industry. In all the years that have past, and all the Indians, trappers, settlers, ranchers and loggers that have inhabited the valley around Dubois, the essential and everlasting beauty of the land has remained undiminished. The wildlife flourished, the air and water is pure, and the land is still fertile.

Update 1/90

ELK MOUNTAIN , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Among early visitors to this area were trappers and mountain men traveling to the Green River Rendezvous in 1825. The town of Elk Mountain was known as "The Crossing" to pioneers using the Overland Trail. Because of the prime location on the Medicine Bow River, settlers began to homestead. The town has grown to serve the ranchers and the travelers.

ENCAMPMENT , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Nestled at the base of the Sierra Madre Mountain Range, Encampment is approximately 21 miles south of Saratoga on Highway 70. Encampment was founded in 1898 after Ed Haggerty discovered copper at the Ferris and Haggerty Mine. The small town went on to play an important role in the copper mining boom from 1898 to 1910. At one time, Encampment had a population of nearly 10,000 and was considered as a location for the state capitol. The town now serves as a center for summer and winter recreation.

EVANSTON , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Evanston was founded in 1868 as a frontier camp for construction of the Union Pacific Railroad. By 1871, with the construction of a roundhouse and machine shops, the town's permanency was assured, and it soon became the shipping center for cattle from Wyoming, Utah, and Montana. Later, a large Chinese population lived in Evanston to work in the Almy Coal Mines and on the UP track. More recently, Evanston was the center of oil and gas activity in the Overthrust Belt.

GLENDO , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The Glendo area is rich in history. The California, Oregon, Mormon Trails and the Overland Stage route passed south of Glendo turning to the west at Horseshoe Creek where a stage station once stood. The original townsite was along the Horseshoe and was called Bellewood. When the railroad was built to the terminal at Glendo it was named after the valley it lies in.

GREEN RIVER , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Green River is one of the oldest communities in the state. It was first incorporated in 1868 under Dakota Territory, then in May of 1891 was incorporated under the laws of the State of Wyoming. The railroad gave the area its first boom and in 1875, Green River became the County Seat of Sweetwater County. In the 1950's the mining industry became important to Green River and has been steadily increasing through the early 1980's.

HANNA , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The town of Hanna, Wyoming owes its founding, initial growth, decline and its resurgence to man's changing perceptions of the value of the large deposits of low sulfur coal in the immediate vicinity. While Hanna was not the first settlement to spring up next to coal seams in this area of Wyoming, it has outlasted others because of the extent of the coal deposits in the area.

KEMMERER , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The town of Kemmerer was founded in 1889 and incorporated in 1902. While the town was founded by the Kemmerer Coal Company, it was not a company town; the company town was that adjacent settlement of Frontier. Private investment was encouraged in Kemmerer and James Cash Penney opened his first "Golden Rule Store" in Kemmerer.

LABARGE , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Oil and gas was first discovered in the area in 1892. A small town by the name of Calpet (California Petroleum Co.) was established in 1926 as was the town of Tulsa. The towns flourished and in the 1930's the name was changed to LaBarge to avoid confusion with Tulsa, Oklahoma. Labarge was incorporated in 1973.

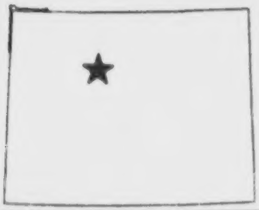
Update 1/90



LANDER , WYOMING
1990
COMMUNITY PROFILE

HISTORY The settlement of Lander began in 1812 when South Pass was discovered. In 1884 Lander was incorporated and made the county seat. The cattle and sheep industries have supported the city since its beginning. Oil was discovered and the first claim made in 1873. In the 1920's Lander was known as the gateway to Yellowstone Park and is still the most scenic way to the Park.

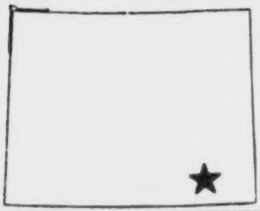
Update 1/90



LARAMIE , WYOMING
1990
COMMUNITY PROFILE

HISTORY

In the spring of 1868 the Union Pacific Railroad's chief surveyor, General Grenville Dodge, chose Laramie's site and name. He picked the site for several reasons: 1) distance 50 miles west of Cheyenne (according to the Railroad Act of 1862 a major new city would be established every 50 miles, but not all survived); 2) proximity to a springs daily producing millions o gallons of unmineralized water; 3) juncture of the railroad with the Big Laramie River; 4) a nearby cavalry post assured protection. Establishment of the University of Wyoming at Laramie in 1866 forever changed the city's prospects.

LOVELL , WYOMING
1990
COMMUNITY PROFILE

HISTORY In 1897, two cattlemen, Henry Clay Lovell and Anthony Mason, brought cattle into the Big Horn Basin region and formed the M-L Ranch on the banks of the Big Horn River. A small settlement had been established at the present site of Lovell by 1890, but there was no post office to serve the community. Using his political influence, Mr. Lovell helped to provide this service and the town was named in his honor. Lovell was incorporated in 1906.

Update 1/90

LUSK , WYOMING

1990

COMMUNITY PROFILE

HISTORY

Frank S. Lusk established this townsite when copper mining began in the Rawhide Butte with the Great Western Mining and Milling Company's mill. When Niobrara County was created in 1911, Lusk was made its county seat and has remained so. The railroad brought a flood of homesteaders to the area up until the 1920's. Cattle ranching overran farming until farmers learned about, and started using, irrigation.

Update 1/90

MEDICINE BOW , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The town of Medicine Bow is located on U.S. Highway 30 just west of Laramie. Its name, "Medicine Bow", is legendary and was derived from the Indian tribes that frequented the area. Along the banks of the river, the Indians found excellent material for making their bows and arrows. To the Indians, anything they found good for a purpose was "good medicine." Thus, the river was called the Medicine Bow River. Since the river originated in the mountains to the south, these mountains were called the Medicine Bow Mountains. When the Union Pacific Railroad was being built, a pumping station was established on the river, and since this was also a supply point, a village sprung up which was naturally given the name Medicine Bow.

Update 1/90

NEWCASTLE , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Newcastle was incorporated in 1889 and designated County Seat in 1890, with an estimated population of 1,500. It became a major trade center for ranching and coal mining. In addition, Newcastle experienced oil booms from 1918-1924 and from 1948-1963. Open pit coal mining in western Weston County from 1975 to the present brought another influx of citizens to Newcastle. Its location on the west edge of the Black Hills has made Newcastle a tourist center, and the abundance of deer and antelope bring many out-of-state hunters to the area each year.

COMMUNITY PROFILE

HISTORY

Named in 1881 for the precious stone that was found there, Opal became an important livestock rail shipping center. At some point, the pronunciation was changed to "O-pal'." today, Northwest Pipeline has a gas plant located in Opal. Opal is 15 miles east of Kemmerer.

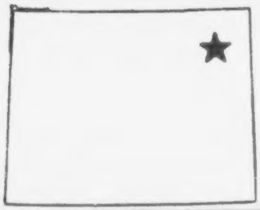
Update 1/90



PINE HAVEN , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Pine Haven is located at Keyhole Reservoir and 25 miles from Devils Tower. The dream began in the 1960's when people began to discover a timbered area nestled in a haven which protected campers from strong winds and terrible storms. A few decided to try to build summer homes and access it along already established cattle trails. Coop and Betty Waters began surveying out 10 acre tracts and in a matter of 3 years over a thousand acres has been platted.

Update 1/90

RAWLINS , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The town of Rawlins is the namesake of General John A. Rawlins, the Chief of Staff of the United States Army in 1867. He was on an expedition of Wyoming where he had an opportunity to drink from a clear spring. He enjoyed the water so much that one of his men promptly named the spring after him, "Rawlins Spring." Like most towns in Southern Wyoming, Rawlins grew swiftly as the railway pushed westward. The first settlement was south of the railroad track near Rawlins Spring and soon became known simply as "Rawlins.' In about 1870, more permanent settlement began on the northside, where most of the city now stands. Rawlins serves as the governmental and economic hub of Carbon County.

Update 1/90

RIVERSIDE , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The town of Riverside was established in the mid-1800s when a man named Dogget founded a way-station to offer supplies to trappers and trade items to Indians. That way-station was situated in approximately the same spot where the Mangy Moose Saloon sits now. As time passed, the way-station developed into a settlement and was called the Dogget Townsite Company. This townsite occupied the four blocks that are now the center of Riverside.

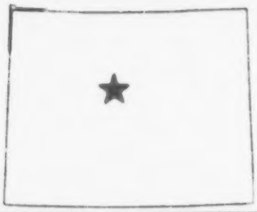
Update 1/90



RIVERTON , WYOMING
1990
COMMUNITY PROFILE

HISTORY

Riverton was founded in 1906 during the land rush to settle acreage withdrawn from the Wind River Indian Reservation. Totally insular within the Reservation, our history blends the cultures of the Arapahoe and Shoshone Tribes with the pioneer spirit of the homesteaders. As a young community, Riverton still features the "can do" spirit of our forefathers. Historically, Riverton has functioned as an airport hub for West-Central Wyoming and the is the crossroads of our area. From the 1838 Rendevous our area has come to be recognized for its excellent location.

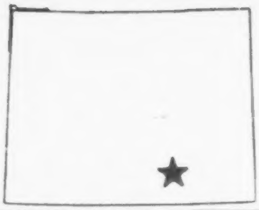
Update 1/90



ROCK RIVER , WYOMING
1990
COMMUNITY PROFILE

HISTORY Rock River was established in 1900 when the Union Pacific Railroad Company placed the main line of the railroad between the Laramie River crossing and Medicine Bow, thus causing the abandonment of the town of Rock Creek and the establishment of the town Rock River. Rock River was incorporated in 1909.

Update 1/90

SARATOGA , WYOMING
1990
COMMUNITY PROFILE

HISTORY Saratoga is built on the banks of the North Platte River, a nationally designated "blue ribbon trout stream." The town is located on what was originally a homestead filed by William Cadwell in 1877. The community was originally called "Warm Springs" for the hot mineral springs which bubble up at several locations near the river. In 1884, however, the town was renamed Saratoga after the famed spa in Saratoga, New York.

SINCLAIR , WYOMING
1990
COMMUNITY PROFILE

HISTORY

The Sinclair townsite was developed in early 1922 when the Producers and Refiners Corporation, with important oil field holdings in Carbon and Sweetwater Counties, started construction of the oil refinery and town at a cost of $18,000,000. The location undoubtedly was influenced by its proximity to the oil fields, an abundant supply of water from the nearby Platte River and ready access to excellent rail and highway routes. The refinery, now called the Sinclair Refinery, is a major employer in Carbon County.

TAXES
(Local)

Assessed Valuation: City: $3,762,957 County: $1,331,547,651
Tax Levy (mills) City: 9.5 County: 5.8 Schools: 43

Industrial property is assessed at 11.5% of market value. Commercial and residential is assessed at 9.5%. Personal property, e.g. machinery and equipment, is assessed at the same rate as the classification in which it is used. The property tax is figured by multiplying the assessed value by the mill levy.

Total Sales/Use Tax: 4%

TAXES

(State)

Worker's Compensation: Costs vary from .11% to 4.98%, depending on the occupation. The rate is adjusted according to each businesses record after two years.

Unemployment Compensation Rate: Average rates for new employers for the first 24 months is 3.39% on the first $10,400 annual wages. Adjustment factors are made after the initial 24 months based on the employer's rating.

NO STATE OR LOCAL PERSONAL INCOME TAX
NO STATE OR LOCAL CORPORATE INCOME TAX
NO STATE OR LOCAL INVENTORY TAX
